

# “RTES 2 CMS” Status

Paul Sheldon, Vanderbilt

May 2 LPC Trigger Group Meeting

# Activity Report (1)

- During CMS Physics Week at Fermilab the RTES group gave a presentation to Emilio Mesche... current RTES demo, etc.
- Last Thursday (April 28) met with Sergio Chitilin and many members of TriDAS-DAQ group
- Gave the presentation attached as a second file...

# Activity Report (2)

- Tried to suggest to them a few ways our group could contribute beginning almost immediately
- Particularly in the area of tools for modeling and code generation/design
- Plan to visit “en masse” during June CMS week, they have agreed to this.
- They are going to think about our presentation and suggest to us ways we can contribute

# Activity Report (3)

- We expect dialog to continue
- Will attend as much of TriDAS week as possible (May 9-13)
